# About Us

Metro Steel Services provide custom stainless steel fit outs for commercial bars and restaurants. Bespoke residential kitchens and outdoor barbeque areas.

Priding ourselves on the highest quality and calibre of craftsmanship in WA, we work with residential and commercial clients to:-

- design
- and
- construct and install stainless steel kitchens, bars, alfresco areas, balustrades and rails

Our construction methods start from a flat sheet, coils or lengths of tube and we can cut, fold, weld, grind, polish and clean to achieve the final result.

We can work with any type of finish and grade of stainless steel, mild steel or aluminium to achieve a clients desired outcome. The quality of workmanship is superb.

## Our facilities include:

- 4 metre 150T N.C. Press Brake
- 4 metre open throat N.C. guillotine
- 5 metre x 1500 x 16mm thick C.N.C. plasma cutter
- digital cutting saw and more

As a result of honesty, integrity and strong work ethic that the business has been built upon Metro Steel Services has grown to be one of the most highly regarded stainless steel fabricators in the Perth Metropolitan region

# Residential

## KITCHENS

The team at Metro Steel Services have been designing and fabricating stainless steel kitchens for over 20 years.

We work directly with:-

- Builders
- Cabinet Makers
- Private Clients
- DIY Renovators

## Our Process

We believe in manufacturing high quality custom made stainless steel fabrication at a fair price; without compromising on quality.

### Our process begins with design.

#### INITIAL CONSULT

We will meet on site to measure up your project or meet with you at our premises to provide a quote

#### UNDERSTAND YOUR VISION

We work with you to understand your requirements and vision

#### PROVIDE A SOLUTION

We will discuss ways to resolve any issues or barriers. Furthermore, using our cutting edge software our draftsman has the capabilities to troubleshoot potential modifications prior to manufacture

# Commercial

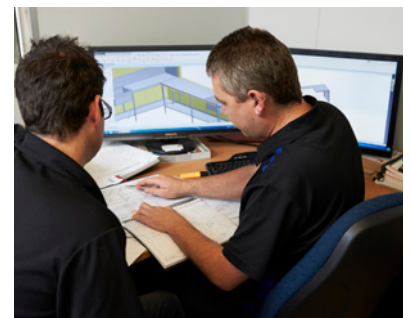

From shop fit outs, to commercial kitchens, bars and balustrade work, we work with our commercial clients in various industries from hospitality to construction.

## KITCHENS

From small cafes to large restaurants and hotels, we provide the highest quality commercial stainless steel products, adhering to all required Health and Safety Standards.

Our products can include stainless steel counters, benchtops, sinks, storage solutions and more. They are all fabricated in WA to our Clients' specific requirements.

We can work with your drawings, sketches or ideas to come up with a design. The design then goes to our workshop for fabrication and we can then arrange onsite installation if required.

## EXHAUST CANOPIES

We custom make kitchen exhaust canopies for commercial and domestic applications and can custom design a solution while following Australian Standards to meet all requirements.

## BARS

Our custom made bars, display shelves and benches are fabricated to each clients' requirements and are proven to be long lasting as well as look great.

Our bars are made from high-grade stainless steel and our staff will fabricate and install bars of any size, as well as beer stations and fonts, splash backs, ice wells, cocktail stations, adjustable glass racks, shelving systems, pot racks and more.

## SHOP FIT OUTS

We work with builders and shop fitters to design, install and construct bespoke stainless steel products for their clients.

From sleek counter tops, cabinetry and skirtings, we work with clients in the retail, fast food and professional services space.

We can fit out brand new spaces as well as upgrade and renovate an existing space and all of our stainless steel products are custom made to our clients specifications right here in our Bibra Lake workshop.

## OUTDOOR KITCHENS, BBQS AND ALFRESCO AREAS

We understand that in our beautiful Perth climate, a stunning alfresco space is a must for any WA home.

We can work with you, or your home builder to create a perfect outdoor kitchen to complement your indoor space, whilst in the process adding value to your home.

You will be the envy of the neighbourhood with one of our custom made kitchens in your backyard.

### Installation

If required, our fully qualified, approachable and professional installation team will work hard to install your new stainless steel products efficiently and with minimal disruption.

We can organise delivery and we believe in working around times and dates to accommodate our clients needs.

We have a wealth of experience in managing the logistics of the installation process with other tradespeople.

### The Metro Alfresco Difference

- custom made locally
- stronger and more durable stainless steel structural frame work
- extra strength double skinned doors
- durable full stainless steel drawer construction
- built to a commercial standard with a domestic high end finish
- 10 year warranty on structural frame and stainless bench tops
- choice of stainless steel, granite or wood tops
- concealed catches behind doors
- easy clean, handle free doors
- installation by our fully qualified tradesmen
- clean and tidy: our tradesmen will clean up all material and mess made
- full 316 grade (marine grade)

Extra strength double skinned doors

Durable full stainless steel drawer construction including runners

## BALUSTRADES, RAILS AND BESPOKE

We work to create custom-made stainless steel balustrades and rails for indoor and outdoor areas of your home.

We can custom design and manufacture railings for staircases, decking areas, balconies, boundary fencing, pool fencing and gates.

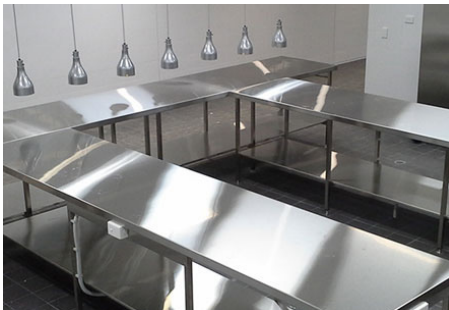

All of our rails are made to meet Australian Standards and not only look great, but are safe and highly durable.

If you want something fabricated from stainless steel, aluminium or steel chances are we can make it.

## STAINLESS STEEL MAINTENANCE & REPAIR SERVICES

The Team at Metro Steel Services provides repairs and maintenance to a variety of clients with busy commercial kitchens. From large fast food chains to smaller restaurants, the team can provide fast and efficient welding repairs, fabricate work and also the installation of specific equipment.

We understand that those working in the fast paced food industry need to ensure their equipment is repaired quickly to ensure minimum interruption to the running of a busy kitchen.

Our maintenance and repair team are reliable and experienced and can work quickly to provide welding repairs, fabrication work and installation of specific stainless steel items.

Metro Steel Services have been servicing McDonald's Stores in Western Australia since the first store opened back in the 1980s
